MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM : Theodore G. Shackley
ADDO

SUBJECT : Status of Follow-up SSCI Terrorism Briefing

You asked about the various items which arose during your briefing of the Senate Select Committee on terrorism 23 September 1976 which require follow-up. Here is where we stand:

a. I had a follow-up session with Bill Miller on 23 September, as a result of which we have prepared a notebook containing basic guidance material and examples of actual cases in which our field Stations have implemented such guidance in real terrorist instances. We have invited Miller and other SSCI staffers to go over this material out here and are awaiting their visit. Miller and Elliot Maxwell, who accompanied him, also got into some broad liaison questions, expanding the scope well beyond terrorist subjects; I gave them broad brush replies since this involves a very delicate area, which Bill Wells and I plan to pursue with Miller only at an informal luncheon session on 15 October.

b. We have had a letter from Chairman Inouye (and a brief preliminary discussion of it with its author, Rick Inderfurth) asking several specific questions related to the Letelier murder. The letter also pursues the question [redacted] this connection. A reply, which we plan to make orally to Miller and Inderfurth, is now being prepared with a deadline of 13 October.

25X1

d. We have asked OGC to procure from Justice the guidelines the Attorney General has promulgated for cooperation with foreign police forces, and are awaiting receipt of these.

e. We will have collected by 13 October the other specific data requested at the hearing: our budget for anti-terrorist programs (now being coordinated with the Comptroller's office), and a statement on the minimal NIO evaluation of the terrorism KIQ (now being coordinated with IC staff and the NIO office).
